KOFILE PRESERVATION

Treatment Report

2012

Condition on Receipt:
Book previously rebound. Paper acidic, weak, torn and chipped at edges.

Treatment:
Book dismantled and binding materials removed. Paper mended with Japanese tissue or filmoplast R heat set tissue. Pressure sensitive tape and adhesive residue, if present, were removed insofar as possible without causing further damage. Paper deacidified using magnesium oxide. Sheets encapsulated in archival grade polyester envelopes. Envelopes bound in record binder.
